**write  
your  
world**

# welcome.

We are delighted to welcome you to our 2022/23 Catalogue. As an industry we have all endured a tough couple of years but for 2022/23 our focus remains unchanged: PILOT is a high-performance brand that delivers world-class products, sets new trends in the market and has been pursuing a consistent sustainability strategy for over 15 years.

And this is exactly one of our focus topics for 2022. Our previous 3R strategy with Reduce - Refill - Recycle is extended to include the cornerstone Reclaim, in which everything revolves around the collection and use of recycled plastic waste from maritime environments, with the B2P Ecoball becoming the flagship product for this project. In addition, all our products manufactured in Europe are certified as climate neutral.

At Pilot we maintain our belief that no household should be without a FriXion, and so we continue to pursue the idea of sustainability within the FriXion Family. With the FriXion Ball and the FriXion Light, we already have two models that are made of at least 50% recycled material (excl. consumables). In addition to this, in 2022 we will be converting all FriXion 3 pack refills to a 100% plastic-free packaging.

At Pilot, we do not expect people to throw away their pen just because they have used up all of the ink, and we encourage the use of refills.

Using Pilot refillable pens and Green Packs can also help reduce greenhouse gases because manufacturing an entire pen produces more CO2 than just the refill components. From the manufacturing through to the end of the product life, it is estimated that using all of the pens and the refills in a Pilot G2 Green Pack gives the cumulative -71% CO2 savings (compared to using the equivalent number of new pens and not refilling them).

And finally, we are delighted to announce that 2022 will see a number of our key Liquid Ink blisters switched to plastic-free packaging.

We look forward to working together throughout 2022 and building on our already fantastic relationships.

*the Pilot Team.*

# what are our environmental commitments?

Find out more

## do better with less.

DO BETTER WITH LESS represents our desire as a manufacturer to limit our **environmental impact** while raising manufacturing, quality, and innovation requirements. This approach is based on 4 essential pillars: **The 4 Rs approach**.

## Recycle

Less waste to turn old into new, by using recycled plastic material to manufacture our pens.

BEGREEN

## Reduce

Less plastic in our packaging to save resources by using preferably recycled carton material in our packaging and FSC-certified cardboard.

## Refill

Less disposable to extend life duration. Over 60% of PILOT products are refillable.

## Reclaim

Less plastic in our oceans to reduce pollution. In partnership with TERRACYCLE, PILOT is adding reclaimed ocean waste to the recycled PET material used in the manufacture of the Iconic B2P range.

in partnership with

As part of our ongoing commitment to reducing the ecological impact of our business, the Pilot Pen Company (UK) Ltd has committed to being a **Climate Neutral Company**. This means that we have calculated our greenhouse gas emissions, and we are continuously looking to reduce them and offset unavoidable emissions through carbon offset projects.

**70%**  
recycled plastic

Since 2006, the **Begreen range is the world's first range of pens made of at least 70% of recycled plastic** - and up to 90% for the B2P. In 10 years, we have increased the amount of recycled materials in our products by 50%.

**100%**  
recyclable packaging

Since 2020, our Begreen range is available **with 100% recyclable cardboard packaging**. All our e-commerce range is offered in 100% recyclable paper flowpacks.

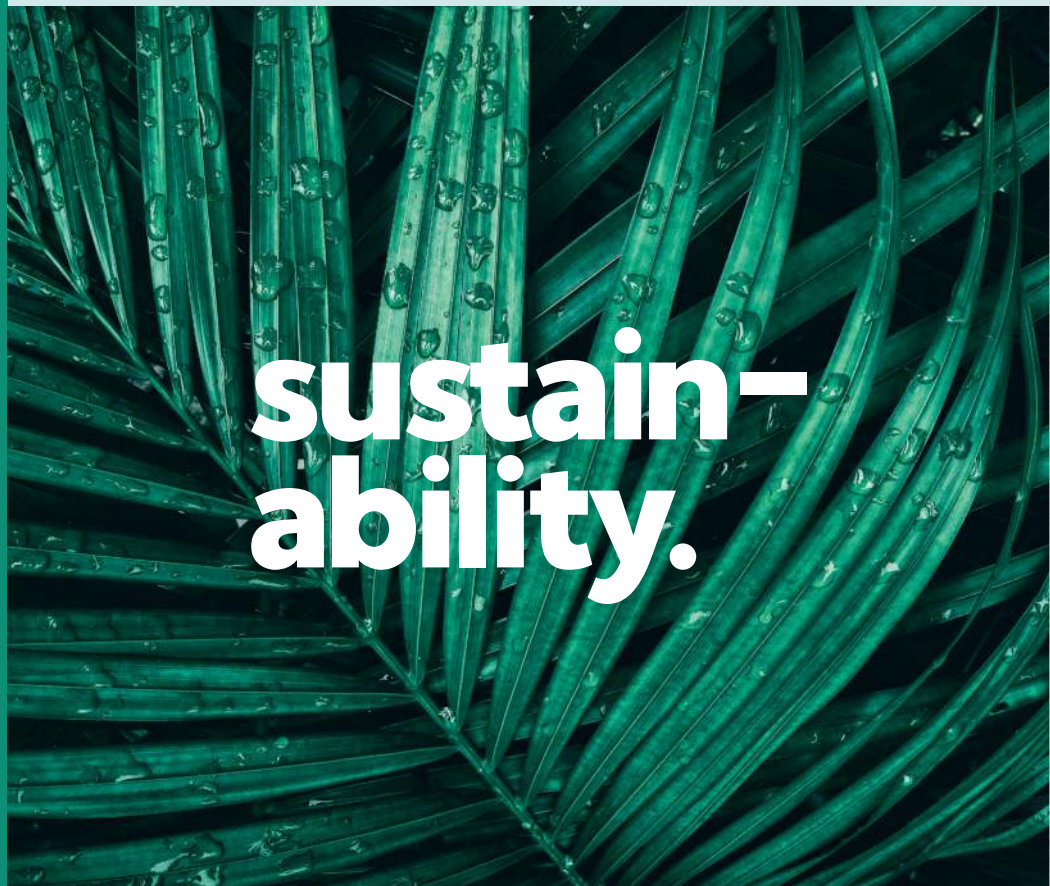

**60%**  
of Pilot products  
are refillable

Using the same product several times instead of throwing it away is a gesture that's simple, economical, and ecological. In this way **by refilling a B2P Gel 3 times, you can cut CO<sub>2</sub> impact by 37 to 71% compared to the single use of 4 pens.**

**8-12**  
million

Between 8 - 12 million metric tons of plastic enter our oceans annually, and 70% of such waste actually sinks to the seabed, where we are unlikely to be able to clean it up. **It is key to collect plastic before it enters the oceans!**

be reactive,  
be innovative,  
be responsible,  
**Begreen.**

**PILOT**

#writeyourworld

# The first pen range with a minimum requirement for recycled plastic: **70%**

By using recycled plastics, **Pilot** :

- uses less oil
- helps preserve our natural resources
- reduces product  impact.

## Frixion Clicker Point.

The Pilot Frixion Point Clicker features all of the best Frixion attributes, but on top of that it features Pilot's unique and innovative Synergy tip. It combines a fine and precise writing line with extremely smooth and consistent ink delivery.

**the right to be wrong.**

## Neon Pintor Markers.

Express your individuality and creativity with the 6 NEW vibrant Pintor Neon colours. With Pintor markers, you can customise, craft, doodle, colour and decorate anything that you can think of - the limit is your imagination!

**dare to be yourself.**

## EcoBall Ballpoint pen.

For 2022 the B2P range will include, as part of its composition, plastic waste reclaimed from beaches. To retrieve this waste, we are collaborating with Terracycle. B2P Ecoball is made of 86.64%\* recycled plastic bottles of which 2.5%\*\* are recycled ocean plastic.

**from bottle, ~~to ocean~~, to pen.**

## Frixion Natural Highlighters.

The FriXion Light series has created for you these six authentic and natural colours that will bring attention to your everyday writing. Highlighting, doodling, drawing, colouring-in, lettering, anything is possible with these unique highlighters.

**good choices come naturally.**

## Plastic free Blisters.

Since 2020, our Begreen range has been available with 100% plastic-free recyclable cardboard packaging. We are delighted to announce that 2022 will see a number of our key Liquid Ink lines switched to plastic-free packaging

**do better with less.**

## Fine writing.

Introducing the Raiz, an elegant new ballpoint pen to refine your everyday life. A twist retractable system with fluted wheel, the oil based black ink, an ultra-soft ink that provides a perfect glide and a very appreciated writing comfort.

With Pilot, it's not only about writing, it's about thinking for yourself. Daring to express your thoughts and personality, declaring your convictions to the world. Saying to someone I love you. Believing in your dreams. Surprising a loved one with a handmade custom present. Adding more colours to a monotone world. Making your ideas come true. Sharing emotions with family. Expressing everything you want on paper, objects, wall, clothes... Nothing can stop you from creating, saying, writing. At Pilot, we care about your ideas and projects. We care about the colour of your passions and about who you are, because we're proud of what you do with our pens. Proud that our engineers, R&D innovations, sales people, and CSR commitments are bringing thousands of people the best tools to achieve what matters most.

# be reactive, be innovative, be responsible, **Begreen.**

The planet demands sustainable and responsible commitments. That's why Pilot, with its Begreen range, commits to reducing its environmental impact as much as possible. From the earliest concept stage, every new product favours the use of recycled plastic, refillable\* design, and the reduction of plastic in our products and packaging. Even if this way of thinking is more ambitious and costly, the pens in our Begreen range are the same price as the usual PILOT pens. It's by tackling the ecological challenge that we will write the world of tomorrow, together.

\*Minimum 70% of recycled plastic, excluding replaceable parts.

# evolution.

## PILOT

#writeyourworld

# the 4R: our pillars.

## recycle,

Limiting use of plastic to the strict minimum and use recycled plastic.

## refill,

Change the refill, not the pen. Over 60% of our products are refillable.

## reduce,

We reduce the use of plastic by creating fully recyclable packaging.

## reclaim,

Less plastic in our oceans to reduce pollution.

## B2P

**ballpoints.**

**ballpoints**

# from bottle ~~to ocean~~ to pen.

\* Rigid plastic material collected from oceans, beaches, rivers, lakes, and the banks of those waterways.

**B2P EcoBall<sup>10</sup>**

is made of

**86%**

recycled plastic  
mainly from bottles  
including 2.5%  
from reclaimed  
ocean plastic.\*

**PILOT**

**#writeyourworld**

# the 4R: our pillars.

## recycle,

Limiting use of plastic to the strict minimum and use recycled plastic.

## refill,

Change the refill, not the pen. Over 60% of our products are refillable.

## reduce,

We reduce the use of plastic by creating fully recyclable packaging.

## reclaim,

Less plastic in our oceans to reduce pollution.

With Pilot, it's not only about writing, it's about thinking for yourself. Daring to express your thoughts and personality, declaring your convictions to the world. Saying to someone I love you. Believing in your dreams. Surprising a loved one with a handmade custom present. Adding more colours to a monotone world. Making your ideas come true. Sharing emotions with family.

Expressing everything you want on paper, objects, wall, clothes... Nothing can stop you from creating, saying, writing. At Pilot, we care about your ideas and projects.

We care about the colour of your passions and about who you are, because we're proud of what you do with our pens. Proud that our engineers, R&D innovations, sales people, and CSR commitments are bringing thousands of people the best tools to achieve what matters most

Sometimes I catch myself jettison down things others say, and I thought that opposed to me. expressions, I erase everything to force myself and I thought I have express myself and And then, I erase every thing to force myself to find my own ideas. Ah my friends, I'm in impossible to count them all. In love with everything and it's opposite, I must have gained in maturity few expectations, what I prefer is finesse. I write tiny letters and because today a little more colour these days, might I add, exploring We could do with a small story in the white spaces, see she strained her eyes but I could missaules places, my own stamp like in a novel. I realised something interesting. I wrote a letter later of things, turn out what you are, and believe me that's not a difference. I'll tell you later of things, turn out what you are, and believe me that's not a difference. I'm much afraid of beauty as I'm of ugliness. I'm not being lucky for important today. But differences bring us together. What I am is all about being different. I'm not being lucky for important today. But differences bring us together. What I am is all about being different. I'm not being lucky for important today. But differences bring us together. What I am is all about being different.

*Dream, live, write*

Write life, forge your successes, find your roots and trace the lines of your destiny with the golden nib of the Custom 74, tinted by iroshizuku ina-ho ink.

Custom 74. A transparent resin fountain pen combining a classic feel with personality.

# CUSTOM 823

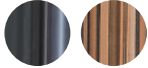

## Custom 823

product group FKKE-3MRP

- Contemporary fountain pen
- 14ct gold nib
- Refillable using Pilot bottled ink

### barrel colour & nib size

F/M/B F/M/B

Item includes  
1 x exclusive gift box  
1 x 70ml bottle of black ink

# CUSTOM 845

## Custom 845

product group FKV-5MR

- Contemporary fountain pen
- 18ct gold nib
- Made of Ebonite and coated with an elegant Urushi lacquer finish
- Refillable using Pilot IC-50 / IC-100 cartridges or bottled ink

### barrel colour & nib size

F/M/B/XB

Item includes  
1 x exclusive gift box

# CUSTOM 74

## Custom 74

product group FKK-1MR-A

- Contemporary fountain pen
- 14ct gold rhodium plated nib
- Refillable using Pilot IC-50 / IC-100 cartridges or bottled ink

### barrel colour & nib size

F/M/B

Item includes  
1 x gift box  
1 x pen with convertor  
1 x black ink cartridge

# Justus

## Justus 95

product group FJ3MR / FJ3MRR

- Adjustable fountain pen
- 14ct gold or gold rhodium nib plated nib
- Refillable using Pilot IC-50 / IC-100 cartridges or bottled ink

### barrel colour & nib size

F/M F/M

Item includes
